

Investigation Notes - Operation Wiccan Tomfoolery

Date: 2024-03-16

Agent: SFA Chesney

Day 1: Initial Intel Gathering

Location: Safehouse, Berlin

Field Notes:

Received initial briefing on the group identifying itself as "Eclipse" Group consists of elements that may be related to American right-wing operations

Key suspects identified:

Ivan Petrov - Ex-Russian military, explosives expert. Requesting InterPol Dossier.

Lena Müller - German national, cyber specialist. Requesting InterPol Dossier.

Ahmed Al-Farsi - Financial backer, ties to various black-market activities. Requesting InterPol Dossier.

Local Muscle - Al-Farsi appears to have hired a number of local criminal elements to act as security and ad hoc operational assets. Assets appear to all have links to the local Daremanov family of the Gadyuka Kraznee (Red Viper) collective operating under leadership from Antonin Darvok Links to Ascendancy certain.

Day 3: Surveillance Operations

Location: Central Berlin

Field Notes:

Tracked Lena Müller to a local café, Der Langenritten.

Lena met with an unknown individual, male, mid-30s, American appearance, alias "Voss".

Captured laser miked audio of conversation: discussed security measures at the Vittenheim HOURGLASS reactor in Norway and potential vulnerabilities.

Photographed meeting; images uploaded to central database for facial recognition analysis. Voss immediately returned no results? Classified results being redacted. Contact Minister on running a referential search. FBI, NSA, military blocked.

Day 6: Infiltration Attempt

Location: Eclipse Safehouse, Berlin

Summary:

Infiltrated periphery intelligence on a low-level meeting.

Confirmed Eclipse's intention to deploy a multi-pronged attack: cyber, physical breach, and diversion tactics.

Discovered preliminary attack date: June 15, 2024.

Asset retrieved partial blueprints of an HOURGLASS reactor.

Plans are not accurate. Double shielded on the primary seed reactor? Follow up with eggheads.

Day 14: Asset Compromised

Location: Safehouse, Berlin

Summary:

Turned local muscle into asset - leverage unauthorized side work dealing mescaline derivatives off territory.

Asset discovered and neutralized by Eclipse operatives.

Intel from asset's last transmission: Ivan Petrov currently in Prague acquiring explosives.

Urgent need to locate and secure all known explosives.

Day 16: Intel Analysis

Location: Safehouse, Berlin

Summary:

Analysis of retrieved blueprints indicates multiple weak points in reactor's security system.

Lena Müller identified as key to breaching cyber defenses.

Coordinating with InterPol sources to evaluate security measures at identified weak points.

Eggheads indicate this is an American reactor feature.

Strahm Baarten - Local LE has him on surveillance. One Wimmerenk big - a bottle of that Schaferschneppes?

Investigation Notes - Operation Wiccan Tomfoolery

Monitoring financial transactions of Ahmed Al-Farsi to track movement of funds related to the operation.

Day 20: Surveillance and Tracking

Location: Prague

Summary:

Surveillance of Ivan Petrov confirmed; currently staying at Hotel Central.

Observed meeting with known arms dealer, Viktor Kovalchuk.

Captured video and audio of transaction: Ivan acquired high-grade explosives.

Preparing for potential intercept operation to confiscate explosives.

Day 27: Cyber Intercept

Location: Sicherhaus 12, Berlin

Summary:

InterPol Cyber intercepted communication between Lena Müller and Eclipse's central command.

Key information: Lena has developed a virus to disable reactor's security protocols.

Virus scheduled for deployment on June 14, 2024.

Immediate need to counteract virus and bolster reactor's cyber defenses.

Investigation passed on a list of
Names found on piece of paper
on Deceased Asset:
Davies, Miller, Isley, Loden,
Brayner, Odm, Kraun
Minster indicates no relevance to
the case. Local contacts for his
RT selling ops.

Day 8: Countermeasures and Coordination

Location: Safehouse, Berlin

Summary:

Coordinated with German authorities and reactor security team.

Implemented advanced countermeasures against identified cyber threats.

Increased physical security around the reactor, focusing on vulnerable points.

Ongoing surveillance of key suspects to prevent any unforeseen developments.

Day 9: Final Preparations

Location: Various

Summary:

Finalized plans for coordinated intercept operations across Berlin and Prague.

InterPol teams in place to apprehend Ivan Petrov, Lena Müller, and Ahmed Al-Farsi.

Monitoring all communication channels for any last-minute changes in Eclipse's plans.

All agencies on high alert; ready to neutralize threat to the HOURSGLASS reactor.

Day 10: Operation HOURSGLASS Execution

Location: Berlin and Prague

Summary:

Executed coordinated strikes on key suspects' locations.

Ivan Petrov apprehended with explosives in Prague.

Lena Müller captured while attempting to deploy virus.

Ahmed Al-Farsi detained; financial networks disrupted.

All key operatives in custody; reactor security confirmed.

Case Status: Closed

Remarks: Successful neutralization of threat. Continued monitoring recommended to ensure no residual risks. All suspects to be handed over to respective authorities for further interrogation and prosecution.

Minster indicated there were
multiple instances of anonymous
informants, all deep male voice,
indicating current location of
assets. Ascendancy not getting
a big enough cut? InterPol
turned one of the assets behind
the scenes?
